

## **Chris Medina**

Chris Medina is the co-founder and Chief Strategy Officer of San Francisco based software company Clovity, Inc. [www.clovity.com](http://www.clovity.com) Clovity was established in 2008 as a Digital, Data, Cloud and Programming consulting firm starting with 3 employees, and over the years has grown to over 110 employees globally. Clovity is now an established proprietary software company that provides enterprise solutions for the Internet of Things (IoT) software space. Clovity is a private minority owned small business enterprise as well as diversified and inclusive certified and a registered US Federal vendor. Clovity has been recognized by CIO Review as the top IoT growing Company in the US for 2018 and 2019, in 2020 Clovity was named Enterprise IoT solution by The IoT Breakthrough Consortium, in 2021 Clovity was awarded the Global Partner solution by IoT Breakthrough Consortium and Fortune has named Clovity in their top 5000 growth companies in the US.

Based in Colorado and for 20+ years, Mr. Medina has led Executive Management and R&D innovation organizations for top Fortune 100 - 500 companies ranging from Retail companies like Best Buy where he led as the Director of Mobile and Digital Content IT organizations or in Financial Services where he led as the Vice President of Architecture and Development for \$11 Billion dollar Financial company Bremer Bank and with Telecom companies as a Director of IT, where Mr. Medina led operations and R&D for both Dish Network and DIRECTV. Mr. Medina has extensive experience in IT specializing in cloud, mobile, marketing technologies, connectivity, and big data. Along with his technical acumen, Mr. Medina's strategic expertise has allowed him to align Clovity with major industry leaders and sign OEM contracts with IBM, Qualcomm, Arrow Electronics, Sony, Cox Communications, Microsoft, and many others.

Prior to his corporate career, Mr. Medina was a licensed Series 7 and Series 63 registered stockbroker where he participated in raising over \$700 million for small and mid-cap market startup companies. Mr. Medina is a graduate from the University of Colorado with a bachelor's degree in Economics as well as a bachelor's degree in Computer Science from Regis University.
